## **Game Development Class**

Game Development class will be enable you to create Medium to High-end games. Unlike using other Platform, Unity game Engine can provide the assets and tools required to create the game of your desire. In the conduct of 2D/3D Game Development Short Course (48 hours) at MCTC, students will get to learn

- Game Design Concept
- Introduction to Unity Engine and Programming with C#
- Intermediate C# and Javascript Programming
- Game Documentation
- Game Development

At the end of the course, students will be able to create Basic-Intermediate Level 2D/3D game from the scratch which can either be port to Mobile or Windows.

**This course is suitable for Gamers, Programmers and Game Hobbyists.**
